

## MURDERED BODY FOUND IN TRUNK

W. P. Dolsen, Marine, Murdered in Horrible Manner in a Boarding-House.

### BLOODY HATCHET TELLS TALE

Police Looking for Charles F. Taylor On Suspicion of Have Killed the Man.

(Special to The Times-Dispatch.)  
NORFOLK, VA., February 1.—The mutilated body of W. P. Dolsen, a discharged United States marine, was found jammed into a trunk this morning. The trunk was new and was ready for shipment. The police are looking for Charles F. Taylor on the suspicion that he committed murder in the most horrible way. The police were called to the boarding house of M. P. Garrett, No. 500 East Main Street, after the members of the household had discovered blood on the bed clothes in the room which had been occupied by Taylor for several days, and which he had invited the marine to share with him. The police found the bed covered with blood, a bloody hatchet, and the body of the marine doubled and forced into the trunk, with the skull fractured and the face cut. Taylor left the house this morning and bought the new trunk in which the body was packed. The last seen of him was when he came to the house again at 10 o'clock with a cord to tie around the trunk.

#### Had Money.

Dolsen had just been discharged, and the presumption is that he had the money as the result of his savings while in the service on his person, and that robbery was the cause of the murder. Charles F. Taylor is twenty-three years old; has a downy moustache; weighs 120 pounds; has a mole on his chin. He wore a double-breasted grey coat, with black dots in it, and a black hat.

No money was on the person of Dolsen. He is supposed to have had \$50 on Saturday, when he met Taylor by chance. He was a corporal; had been in the service five years, and had a fine record. He left the receiving ship Franklin recently and was assigned to the marine barracks at the navy yard to await his final discharge. When this came Saturday, he said good-bye to his friends there and told First Sergeant of Marines T. E. Johnson that he did not know whether he would re-enlist or not. He expressed a desire to return to his old home in Breenton, Washington State, after a long absence, and said he would not decide upon the question of a re-enlistment until he had spent his vacation of three months at home.

#### Introduced the Marine.

Taylor, carrying Dolsen to the Garrett house Saturday night, introduced him and agreed to have the ex-marine go in his room. Dolsen occupied one and Taylor the other. The men have been frequently seen together since Saturday. The presumption is that Taylor drugged Dolsen last night and taking the best chance, struck him a terrific blow with the axe, which has been found, crushing his skull. Not having made good work with the axe, the hatchet is supposed to have been used, as a pinner and more effective weapon.

#### Mangled By Saw.

(Special to The Times-Dispatch.)  
HARRISONBURG, VA., February 1.—Jackson A. Shoemaker, aged seventy years, and one of the best known citizens of Rockingham county, had a narrow escape from death at his saw mill in Hopkins's Gap. Mr. Shoemaker is the oldest saw mill operator in the Valley, and was making plaster laths, assisted by his son and nephew. When he came across a rough piece of board, he attempted to force it in the saw, which it gave away and he was dragged into the saw. His arm was horribly mangled, and he is in grave danger of blood poisoning. His son shut off the power at once, and this fact probably saved his life. He walked half a mile to his home, and came very near bleeding to death.

#### New Midshipman.

(Special to The Times-Dispatch.)  
RALEIGH, N. C., February 1.—Auditor Dixon received a letter this morning from Senator Simmons to the effect that he will appoint Leslie Jordan, midshipman at the Naval Academy, Jordan is a son of Dr. J. J. Jordan, of Raleigh, and is now a cadet in the A. and M. College.

#### STOMACH ON THE BRAIN.

What if a Man Gain the Whole World, and Lose His Appetite?

The man with a well-behaved stomach never makes a mistake. He knows what he likes, and likes what he eats. He knows he'll enjoy it, because he knows he has a stomach that will easily digest it. All things look good to him; he will sit close to the table, and with a merry twinkle in his eye and a world-peace expression, he will "start" on the delicious meal before him.

But the man with the bad, brash, gurgly stomach is the man who is always thinking about it. He can seldom eat what he must like, and seldom sleep what he needs. He is a nervous wreck before meals, after meals and between meals. It is on his brain. It robs him of his cheer and interferes with his daily work. Around him is a dark spirit which presses itself forward in his thoughts, crying: "I am angry. I am disgusted. I am nauseated. I am sick. I am languid, weary. I am conceited in my lunches and pappy food, and nourished by gummy meals. I rob brains of their force and bodies of their life. I steal away nerve and vim. I bring heart disease and indigestion to the world a pit of weariness and darkness. I am woe. I am death. I am dyspepsia. But yet, I bring also hope, light and future health to him who by my gloomy presence I give you warning and a chance to escape me."

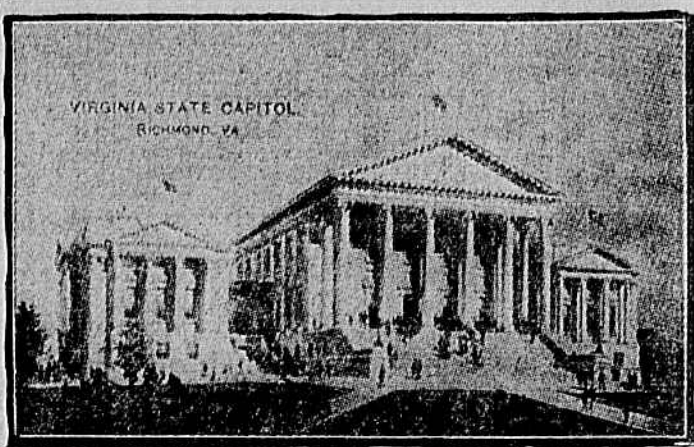

This is a bad dream, but it is the daily dream of the dyspeptic. If it were not for the white, fluffy, light tablets, it would be a nightmare. We could know the joy, the happiness of a well-ordered digestion. All the world looks bright to a man of good health and good health is impossible without a good, hardy stomach. And any sick or weak stomach can be made a good strong one by just taking something which will digest your food for you, instead of letting your tired stomach do it. Stuart's Dyspepsia Tablets are the most effective little tablets in the world for this very thing. If you feel bloated after eating, or you have nausea, aversion to food, brash, irritation, sour stomach, heartburn or dyspepsia, Stuart's Dyspepsia Tablets will stop it, because one grain of an ingredient of these tablets will digest 3,000 grains of food.

Your stomach is overworked. Let it take a rest. You're not yourself when you have a bad stomach. These tablets will do the work that the stomach has to do and make you feel bright, think clearly and give you ambition and power to concentrate your attention on your work. You'll feel good. You should always have a box of Stuart's Dyspepsia Tablets on your dining table. They will make you get all the good possible out of everything you eat, and you'll enjoy it.

## NUDE PICTURES IN PETERSBURG

Mayor Jones Will Not Suppress Slot Machine Post Cards at Skating Rink.

### A CLERGYMAN COMPLAINS

The Oldest Flirt in America Arrested for Attentions to Ladies.

(Special to The Times-Dispatch.)

PETERSBURG, VA., February 1.—The immoral picture question came up to-day for decision by Mayor Jones, who decided that the slot machine post cards at the skating rink need not be suppressed. A Petersburg clergyman had made a complaint of the alleged immorality of the cards, which represent works of art in the nude, and a number were shown to the Mayor by Chief of Police Bagland. Probably the oldest flirt in America has been fined one hundred dollars and sent to jail for ninety days by Mayor Jones for advanced attentions to ladies to whom he has been trying to sell some beautiful confection for the skin. The aged beau gives his name as Thomas Jefferson Watson, and says he is from Los Angeles, California, and is seventy-three years old. He was visiting houses trying to sell his preparation to ladies, who soon reported his unwelcome attentions to Chief of Police Bagland.

Mr. J. L. Higgins and Miss Gay L. Clayton were married last evening at the residence of Dr. W. C. Taylor, pastor of the First Baptist Church. In the absence of Dr. Taylor, Rev. J. R. Doan, of the West End Church, performed the ceremony. Miss Nannie J. Williamson was married to Mr. William S. Smith, of Nottoway county, at the bride's home, on High Street, this morning. Rev. J. R. Doan performed the ceremony. Another battlefield park conference was held to-day at the National Bank, and Colonel Archibald Gracie, who has come down from Washington in the interest of the plan, was taken out to the Crater, and around the lines, where it is proposed to locate the national park. Colonel Gracie saw the exact spot, within a few yards of the Crater itself, where his distinguished father, General Gracie, of Alabama, was killed in the defense of Petersburg, December, 1861.

#### Sensational Advance.

NORFOLK, VA., February 1.—The most sensational advance ever recorded in the price of lumber in the South Atlantic States was ordered at a meeting of the

North Carolina Pine Association here to-day.

The price on all grades of lumber was advanced \$2 a thousand feet for some of the better grades, and \$5 on some other grades, principally the lower grades. This means a net advance in prices from about 5 to almost 15 per cent., according to grade.

#### TOBACCO SALES.

Statement of the President of the Danville Tobacco Association.

(Special to The Times-Dispatch.)  
DANVILLE, VA., February 1.—The statement of sales for the month of January of 1906 on the Danville tobacco market, and also comparative statement, is as follows:

Sales for January, 1906, 5,039,242 pounds, for \$518,566.75.  
Amount sold in January, 1905, 2,157,755 pounds, for \$203,600.85.  
Increase in favor of 1906, 1,872,487 pounds; in amount paid, \$314,965.90.

Amount sold for five months of 1905 and 1906, 22,456,521 pounds; for \$2,084,252.01.  
Amount sold for five months of 1904 and 1905, 17,636,563 pounds, for \$1,515,032.67.  
Increase in favor of 1905 and 1906, 4,820,958 pounds; amount paid, \$569,199.34.  
It will be seen from the above report that there is a gain of nearly 2,000,000 pounds in January, 1906, over the same period of 1905. You will also see that in the five months of this tobacco year there is a gain of nearly 5,000,000 pounds over the same period of last year. For fear this gain might be misleading to some, I wish to repeat it is not attributable to the crop, but to the unusual seasonable weather for straining and handling tobacco in barns, and also to a growing tendency on the part of all farmers to sell earlier and thereby clear their barns before the warm weather. The quality of the offering is about the same as previously reported. Market active on all grades and prices continue to strengthen.

Small stores of old tobacco are now held by our dealers. In fact, I believe the smallest for this season of the year for many years past. There have been some round lots sold the past month at very satisfactory prices to buyers.

R. W. DIXON,  
President Danville Tobacco Association.

## AGREED ON A NATIONAL QUARANTINE BILL

Southern Senators and Representatives Frame a Measure Which Will Be Submitted To-day.

(By Associated Press.)  
WASHINGTON, D. C., February 1.—Members of the special committee selected at a caucus of Southern Senators and Representatives agreed to-day on a national quarantine bill which will be submitted to a general meeting to-morrow night of delegations from the States especially interested in national legislation to banish yellow fever.

The bill incorporates many of the provisions of the Mallory bill, but instead of protecting against "contagious and infectious diseases," as the Mallory bill does, the committee's measure limits the quarantine measures to yellow fever. Specific provision is made in the committee bill for the co-operation of the public health and Marine Hospital service with State authorities in establishing and maintaining interstate quarantine.

After detailed provisions for a strict maritime quarantine under the direction of the public health and Marine Hospital Service, the bill increases the salary of the surgeon-general of the service to \$7,000 and appropriates \$50,000 to carry out the act, as well as to prevent the importation of yellow fever into the United States and in co-operation with the State health authorities of eradicating it, preventing its spread from one State into another.

The special committee agreed unanimously upon the measure.

#### \$500,000 LOST BY FIRE IN THE CITY OF PANAMA

(By Associated Press.)  
PANAMA, February 1.—A. M. Shortly after 2 o'clock this morning fire started in a four-story wooden house, known as the Concordia, in the Carrera District. At 2:30 A. M. adjoining three-story building was ablaze and a whole block, composed of wooden houses, was threatened with destruction. A large block of houses between Constitution, Dolego and Caudas streets, was destroyed. At 5:30 A. M. the fire was under control. The losses are estimated at \$500,000, with very little insurance. Many women and children lying in the tenements were rescued by the volunteer firemen. No lives are known to have been lost, but some Americans who roomed in the Concordia building are reported to be missing.

#### RIGID INVESTIGATION OF VALENCIA WRECK

(By Associated Press.)  
WASHINGTON, D. C., February 1.—Secretary Metcalf, of the Department of Commerce and Labor, late this afternoon ordered a thorough and searching investigation of the Valencia wreck off Vancouver and the conduct of officers and crew of that steamer, as well as the officers of the steamers Topeka and Queen, which went to the assistance of the disabled vessel. The order is contained in a telegram sent the local inspectors of the steamship inspection service at Seattle, Washington. Public hearings will be had and testimony taken from all available witnesses. The report will be immediately turned over to a special commission appointed to-day, and consisting of Assistant Secretary Murray, Supervising Inspector-General Uhler and Herbert Knox Smith, deputy commissioner of corporations. These three officers were members of the commission which investigated the Stocum disaster.
